Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. Applicant's response to the office action filed on October 5, 2005 has been entered. The claims pending in this application are claims 23-56. Rejection and/or objection not reiterated from the previous office action are hereby withdrawn in view of the response filed on October 5, 2005.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 23, 24, 26-30, 32-40, and 42-56 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. Claim 23 is rejected as vague and indefinite. Since the claim is directed to an automated system (a device or an apparatus) and is not directed to a method, it is unclear how a part of a device or an apparatus is one or more transport mechanisms since one or more transport mechanisms may be method steps. Please clarify.

Response to Arguments

In page 8, last paragraph bridging to page 9, first paragraph of applicant's remarks, applicant argues that "the Examiner has provided no reasoning to suggest how a transport mechanism may be method steps. To the contrary, the phrase "transport mechanism" clearly and unambiguously conveys that the recited structure is a device that can carry a reaction receptacle

between stations of the claimed system. See Attachment B, dictionary definition of the term 'mechanism'.".

This argument has been fully considered but it is not persuasive toward the withdrawal of the rejection. First, according to dictionary definition of the term "mechanism" submitted by applicant, the word "mechanism" can be a "process, physical or mental, by which something is done or comes into being". Second, applicant has no evidence to show that one or more transport mechanisms can only be read as one or more devices.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

6. No claim is allowed.
